CHARLES H. WELLER

March 27, 1923.

*I have been most interested in this discussion -
with respect to the Bulletin*

President Walter A. Jessup,
State University of Iowa,
Iowa City, Iowa.

Dear President Jessup:

The American Association of University Professors, desiring to work in most effective cooperation with the executive officers of colleges and universities, is anxious that the presidents of these institutions receive the Bulletin of the Association regularly.

The Chapter of the State University of Iowa is in full sympathy with this desire of the Association and believes furthermore that the Bulletin is an important instrument for promotion of the best aims in higher education and research.

We are glad, therefore, to say that arrangements have been made by which a copy of the Bulletin will be sent to you without cost.

Cordially yours,

American Association of University Professors
University of Iowa Chapter.

B L Ullman

President.

Mabel C Williams

Secretary.
